Output Power Expansion Multi-Range Two-In-One Table 1: Single-Output High-Voltage Programmable DC Power Supplies The dual range feature of the 9185 gives users the ability to select between higher current capability at a lower voltage range (up to 400V and 500mA) or higher voltage capability at a lower current range (up to 600V and 350mA). This allows more applications to be addressed by a single supply.
