They include safe battery technology, fire protection, liquid cooling, secure data management, and real-time monitoring of over 3,000 data points, with in-house EMS software for precise energy optimization.

With 15 years of experience in battery technology, we guide customers through every step. We handle system design, project management, installation, grid services, and maintenance.

Accommodates additional battery modules, facilitating easy expansion as energy demands increase. Features integrated cooling or ventilation systems to maintain optimal battery temperatures, thereby ...

Battery Ampowr Energy Storage Systems Our Smart Battery Energy Storage Systems are leading the energy transition and powering a wide range of industries and applications.

Solar battery backup systems, like the Tesla Powerwall, can power large appliances for a short period of time, or small appliances for a long period of time. For example, without recharging from solar, one ...

Use the product tabs below to download the datasheet for your product. For any other documents or questions please.

Battery enclosure boxes also feature locking mechanisms that protect unauthorized people against possible electrical dangers if they happen to be tampering with your equipment. Our battery ...

We offer reliable Battery Energy Storage Systems (BESS), equipped with our cybersecure, in-house Energy Management System (EMS), Cosmos. Our battery and software solutions integrate ...

Integrated battery solutions Ampowr designs and manages both BESS hardware and software in-house, ensuring seamless integration and peak performance. Our unified approach eliminates the need for ...
