Discover a business case for starting a local solar module factory in Brazil's booming Distributed Generation market. Learn how to serve local installers and build a profitable enterprise.

Planned green-hydrogen hubs along the Northeast coast could add 25-30 GW of additional photovoltaic demand, reinforcing Brazil's position as Latin America's largest solar producer.

As we count down to the Solar World Congress 2025 in Fortaleza, let's dive into Brazil's solar energy history. Fifteen years ago, no one could have imagined that Brazil would become one of ...

Brazil's centralized solar generation market experienced a decline in photovoltaic (PV) module demand in 2024, reaching 5.1 GWp, an 18% decrease from 6.2 GWp in 2023, according to a ...

The Brazilian solar sector is experiencing a rapid expansion, with planned utility-scale installations amounting to more than 139 gigawatts as of February 2025.

In 2016, a factory capable of producing 400 MW of solar panels a year opened in Sorocaba in São Paulo, owned by Canadian Solar. A plan to build a solar panel factory in Rio Grande do Norte was announced by the Chinese manufacturer Chint in 2017. In 2020 LONGi Signs Association Agreement for 908 MW of Solar Modules in Brazil. The opening of three major solar farms in Brazil in 2017 altered the solar situation: the 292 MW Nova ...

With 2.3 million solar modules produced in Brazil, BYD is reinforcing its industrial presence and commitment to clean energy.

Brazil accounts for only 27% of solar capacity that is currently operating or under construction in Latin America, but 65% of the capacity in the pre-construction phase, and so is home ...

Brazil s annual production of 250 000 solar modules project

The data consider the sum of large-scale solar PV plants with small and medium-sized self solar PV generation systems, on roofs, facades of buildings and also on small plots of land, ...

Solar energy in Brazil surpassed the 55 GW milestone in March 2025, more than doubling its photovoltaic (PV) count in the last few years. That breakneck expansion is reshaping Brazil's energy ...
