---

The first two phases of Oasis de Atacama, the largest solar power and energy storage project in Latin America, have come on stream in Chile's Antofagasta Region.

Atlas Renewable Energy, based in Miami, recently inaugurated the BESS del Desierto Project in partnership with Chilean energy giant COPEC-EMOAC. Located in Antofagasta, the ...

Solar and energy storage deployment is booming in Chile, spurred on by supportive government policy that has been markedly stable for 15 years. Indeed, the nation leads Latin ...

With 23 energy storage projects already approved, totaling an impressive 3,000 MW of capacity, Chile is at the forefront of innovation and efficiency in Latin America.

Chinese companies have in recent years built, or announced plans to build, Chile's longest power line, solar plants and wind farms, while in battery storage, solar giant Trina has ...

The ability to store and dispatch large amounts of energy allows for greater penetration of renewable energy sources into the grid, particularly solar power from the Atacama Desert.

Grenergy Renovables, an independent renewable energy company based in Spain, is delivering the world's largest hybrid solar and battery storage project, Oasis de Atacama, in northern ...

The site, the first solar-plus-storage project built from scratch by Engie Chile, will feature 208 lithium-ion battery containers. Engie Chile wants 3.5 GW of installed energy capacity by 2027, ...

A joint venture (JV) between EDF and developer AME has begun construction of large-scale battery and solar photovoltaic (PV) projects in Chile, with 2GWh storage capacity.

## Chile solar power generation and energy storage project

Atlas recently closed \$510 million in financing for its Estepa project in Chile, a hybrid system with an installed solar capacity of 215 MW and two battery energy storage systems.
