NOTE: Specifications are approximate and are subject to change. Our Clip-On Gensets are built to provide power to Reefers in transit. The Clip-On is fitted to the top corner castings.

The "Clip On" Generator Set is designed to clip on to the front frame of a refrigerated container. The water cooled diesel generator can provide continuous (single voltage) electrical power to intermodal ...

With its clip-on design and Carrier's commitment to quality, this generator supports the efficient operation of refrigerated containers, delivering superior reliability for your supply chain.

Thermo King Generator Clip On ISO Refrigerated Container Genset Key Feature for Clip On ISO Refrigerated Container Genset 818 kg (1804 lbs) - Total Weight, including Gen Set, oil, coolant, dry ...

Factory pre-integrated and customizable per site requirements, the new Cummins Containerized Series generator sets can provide significantly shortened lead time for installation, and a lower cost of ...

Our generators are housed in robust cast-iron 20-foot (diesel only) or 40-foot (diesel and gas) CSC plated ISO containers that are easy to transport by road, sea or air.

Simply put, dual packs are two parallel generators in one ISO container: Two 500 kW generators could be paralleled to achieve a 1000 kW output, or two 625 kW generators to achieve 1250 kW.

Thus, a clip on generator is the perfect solution for refrigerated containers that are transported on ships, trucks or rail, as well as for storage in places where no power connection is available. The weight of ...

SEA BOX's selection of generator sets can be connected to one or several refrigerated containers to provide reliable power with the need to connect to a local power source.

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height

## Container cold box generator weight

depend on engine type, the application (power generation only or CHP) and ambient conditions.
