Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Introducing our Container Solar Mounting Photovoltaic Support System--a game-changing solution that transforms unused container roofs into efficient solar energy generators.

Solar support structure for adding solar panels to top of 40ft shipping container. Kit includes, rafter legs, support rails and Pro Solar module clamps.

Each unit consists of 4 galvanized steel boxes, 18 double-glass solar panels (we offer optional lightweight flexible solar panels without glass) and an aluminum kit structure.

Discover the transformative potential of solar panels on shipping containers. Explore custom kits, modular configurations, and innovative applications.

Thinking of adding solar panels to your shipping container? Learn key considerations, how many panels fit on 20ft and 40ft containers, plus tips and real-world examples.

Curious about shipping container homes with solar panels? Learn about their features, sustainability benefits, customization options, and cost-effectiveness.

We are proud to partner with one of the leading providers of factory installed solar options for shipping containers. Learn more about the product and inquire below.

Turn your container roof into a power station - without welding, cutting, or complicated installs! Our solar panel mounting kits are designed specifically for shipping containers.

Custom foldable solar system for 20ft container, delivering 126 kWh/day with 25.83 kWp panels and
