What is Croatia's 5G plan?

The Croatian plan aims to provide connectivity with download speeds of at least 100 Mbps to all households, while providing government offices and public buildings such as schools and health facilities with symmetric connections of at least 1 Gbps. It also seeks 5G networks in all main cities and towns and along major highways.

Does Croatia need 5G?

It also seeks 5G networks in all main cities and towns and along major highways. The Digital Croatia Strategy until 2032, a multi-sectoral strategic planning act, was approved in 2022 and sets the following main strategic objectives: developed digital competences for working and living in a digital age.

Which mobile networks are covered by Hrvatski Telekom mobile?

This map represents the coverage of 2G, 3G, 4G and 5G mobile network. See also : mobile bitrates map and Hrvatski Telekom Mobile, TELE2, A1 Mobile mobile networks coverage.

What is Croatia's national plan for broadband development 2021-2027?

Croatian National Plan for Broadband Development 2021-2027, Digital Croatia Strategy as well as Croatia's Recovery and Resilience Plan respond to the European Gigabit Society 2025 and Digital Decade 2030 targets and objectives.

Through the pilot, which was run over two years in areas of the city of Samobor, Hrvatski Telekom has enabled 5G technology on ten base stations in the 2.1GHz frequency

It has been integrated into an existing cockpit that already includes internet performance statistics from all operators in a country, as well as access to speed-test results and coverage data.

Hrvatski Telekom achieved record results in 2024 with the expansion of 5G network and optical infrastructure, providing the best customer experience in Croatia.

In terms of mobile network performance, Croatia has made notable strides. The country has assigned all 5G spectrum in the pioneer bands, achieving 100% 5G readiness.

# Croatia has 5G base stations for communications
