What is a cabinet power distribution unit (PDU)?

Cabinet Power Distribution Units (PDUs) are a type of PDU that is specifically designed to be mounted in a server cabinet or enclosure to provide power distribution to IT equipment, servers, and other connected devices.

What is a cabinet PDU?

Overall, cabinet PDUs provide a highly efficient and space-saving power distribution solution for server cabinets and enclosures in data centers, server rooms, and other IT environments. Their flexibility, efficiency, and advanced monitoring and control capabilities make them an essential component of power distribution in modern IT infrastructure.

What is Eaton cabinet PDU?

Eaton cabinet PDU plays an important role in any power management system. Designed to work on both non-raised and raised floors in a data center, with scalable architecture and front access only design, this 3-phase PDU provides unparalleled ease of use.

What is a Tripp Lite PDU?

Tripp Lite PDUs feature multiple outlets, allowing you to distribute power to a wide variety of computers and other network equipment within a rack. If you need help finding the right PDU for your rack power distribution, contact us.

Get unmatched power distribution in a highly compact footprint with Eaton's Remote Power Panel (RPP). This highly customizable unit offers a choice of standard or rack depth cabinets with up to ...

Delta's PDUs offer power capacities from 225 to 950 kVA and are highly customizable products. We can design and manufacture solutions tailored to your data center based on your input/output voltage, ...

Three-phase power includes 3 AC waveforms, making 3-phase equipment better suited for intermediate and high-capacity applications with per-rack power consumption levels that surpass the practical ...

USPWR provides proven, best in class Cabinet Power Distribution Units (PDUs) including 3 Phase PDUs and

Distributed Energy Power Cabinet Three-Phase OEM

Single Phase PDUs for all your critical power and data center needs.

AZE Metered by Outlet with Switching Rack Power Distribution Units (PDUs) deliver reliable power to critical IT equipment within a rack or cabinet, includes a local LED display to view real-time power ...

Easily find the nearest Schneider Electric distributor in your location. Find support resources for all your needs, in one place.

The PG series 3-Phase PDUs are perfectly suited to server rack installation requiring energy-efficient power distribution to high-density IT equipment in a server room or data center.

The Liebert® RXV remote power distribution cabinet provides dense power distribution in a small footprint, with up to 400 Amp inputs and 84 poles in a single 24"x12" panelboard.

View configurable and well-engineered 3-phase Power Distribution Unit (PDU) Cabinets from Eaton. Configure a power management system for your IT needs.

As a result, server enclosures are requiring more power than ever before and demanding effective, efficient power distribution, which is essential to managing power capacity.
