Who is Enphase Energy?

About Enphase Energy, Inc. Enphase Energy, a global energy technology company based in Fremont, CA, is the world's leading supplier of microinverter-based solar and battery systems that enable people to harness the sun to make, use, save, and sell their own power - and control it all with a smart mobile app.

Why is Enphase launching in India?

The launch in India builds on Enphase's rapid global rollout of FlexPhase technology, which is now available in 18 European countries, Australia, and New Zealand. This expansion demonstrates Enphase's commitment to bringing flexible, high-quality energy storage to markets with diverse grid standards.

Is Enphase a good choice for energy storage in India?

"Enphase is giving us the flexibility to serve both commercial and residential customers with one system." "Reliability is critical when it comes to energy storage in India," said Shivam D Rai, proprietor at Shivshakti Enterprises, an installer of Enphase products in India.
