Gambian utility Nawec is seeking proposals for a 50 MW PV facility planned to be deployed in Soma, south of the River Gambia. The project is part of a broader solar project eventually...

In The Gambia, the World Bank is preparing two energy sector projects to support the reform agenda and align with the long-term roadmap of the Gambian energy sector.

The project includes a 50MW solar power plant and an 18MWh battery energy storage system (BESS). While the RAP was approved in 2023, updates are needed to prepare for site ...

The project, which began construction in February, incorporates 8 MWh of battery storage and is expected to boost the country's energy output by 20%, powering approximately ...

Gambian utility Nawec and the country's Ministry of Petroleum and Energy is seeking proposals for a first phase 50 MW solar project with energy storage located in Soma.

The initiative, unveiled during a pre-bid meeting, signals a major leap in the country's ambitions toward universal access to energy, renewable energy integration, and energy ...

Gambia's Ministry of Petroleum and Energy (MoPE) and state-owned utility Nawec have jointly launched a tender for the construction of a 50MW Solar Storage System in Soma, south of the ...

On completion, the plant would not only be Gambia's first utility-scale IPP but is also planned to be the foundation for a major West African Power Pool-focused second phase.

The project's development objective is to support the government of The Gambia (GoTG) in piloting the implementation of a sustainable solar and battery energy storage system (BESS) ...

Gambia wind solar and energy storage project construction

Greek energy company Faria Renewables and Chinese tech giant Huawei have announced a strategic partnership to advance battery energy storage system (BESS) projects in Greece.
