We create custom data center designs focused on layouts, power efficiency, cooling optimization, and scalability to meet your specific business needs. Our expert engineering ensures your infrastructure ...

It provides a cabinet-level battery management system and supports a maximum of 15 cabinets connected in parallel to meet MW-level UPS backup power requirements.

The EPC model consolidates the various risks associated with a complex data center construction project into a single package, overseen by one capable organization.

It can deliver up to 222.2 kWb (Li7) or 263 kWb (Li5) in 600 mm wide cabinet. It is designed to operate at higher temperatures of up to 30 C and optimized for either 5- or 7-minute runtime. Built with lithium ...

Explore high voltage battery packs, wall mounted lithium batteries, and ESS cabinets from Hoenergy -- your 2025 Global Tier 1 Energy Storage Provider.

This system enables 24/7 remote control and monitoring, and is designed to efficiently manage and optimize multi-MW and even GW projects, given a stable internet connection.

The 18U 600mm Wide x 600mm Deep PI Data enclosure/cabinet has been designed to ensure maximum rigidity and weight loading without compromising the versatility of the solution.

At EPC Power, we're focused on delivering scalable, future-ready products that allow data center developers to meet their energy needs while reducing their carbon footprint.

The Lightweight Wall Mounting Cabinets feature fixed profiles and a large cutout panel at the rear. The cabinet is finished in goose grey with a lockable ash grey perspex inset door.
