How long can you store a TV?

You can store a TV for a long time as long as it's stored properly. Make sure to follow the steps and necessary measures in maintaining the condition of your electronics. Ready to Make Some Extra Space in Your Home? By following these five simple steps, you can store your television safely and securely for months or even years at a time.

How long do LCD TVs last?

If you buy a current LCD TV today (and take reasonably good care of it), you can generally expect five to seven years of excellent performance before you start missing out on significant advances in technology from newer models or your TV begins to experience component failures. So, what happens when a TV starts to fail?

Should I store my TV in a climate-controlled storage unit?

With a regulated storage unit, you don't have to worry about humidity and temperature damaging the inner parts and circuits of your TV. Storing your television in a climate-controlled self storage unit will prolong the functionality of your TV despite being stored for a long time.

How to choose a TV storage facility?

Look for a storage facility that offers climate-controlled units. These units maintain a consistent temperature and humidity level, protecting your TV from potential damage caused by temperature fluctuations, moisture, or mold growth. Ensuring the security of your stored TV is crucial for peace of mind.

However, storing your TV in a storage unit requires planning and preparation before installation. Let's discuss the proper preparation before storing in a TV storage unit for an extended ...
