Are solar panels a good investment in France?

As electricity prices continue to soar in France - up 60% in four years - more people are turning towards solar panel kits, which promise to help users save on energy costs and installation prices. The estimated extra cost of electricity in 2024, compared to 2020, is EUR540 per household per year.

How much does a rooftop solar system cost in France?

From pv magazine France France's energy regulator, the Commission de Régulation de l'Énergie (CRE), has released FIT rates for rooftop solar installations up to 500 kW in size for February to June 2025. For February and March, the FIT is EUR0.0987/kWh for PV systems up to 3 kW and EUR0.0839/kWh for installations between 3 kW and 9 kW.

How much does a PV system cost in France?

The trend has only intensified in 2025. As of early 2025, PV systems with a capacity of up to 9 kW now receive a feed-in tariff (FIT) of just EUR0.04/kWh. In stark contrast, the current retail electricity price in France stands at EUR0.2146/kWh - more than twice the current FIT.

Why are French PV system owners using more solar power?

Lower payments for PV energy fed into the grid are pushing PV system owners in France to use more of their own solar power. The solar energy market in France is changing quickly. In 2024, the French government introduced significant cuts to feed-in tariffs (FITs) - the rates paid to PV system owners for feeding surplus electricity into the grid.

As electricity prices continue to soar in France - up 60% in four years - more people are turning towards solar panel kits, which promise to help users save on energy costs and installation ...

The average cost of a solar panel system in Paris is 4 per watt. The average solar panel system size in Paris is around 6.3 kilowatts, meaning a cost of about \$16,574 for a solar installation, or \$23,701 ...

As of early 2025, PV systems with a capacity of up to 9 kW now receive a feed-in tariff (FIT) of just EUR0.04/kWh. In stark contrast, the current retail electricity price in France stands at EUR0.2146/kWh - ...

Solar panels installation in France: Find out the costs, incentives (reduced VAT, grants), planning, average

use, & insurance considerations.

France's new feed-in tariffs (FITs) for February to June 2025 range from EUR0.0839 (\$0.0907)/kWh to EUR0.1295/kWh, depending on system size.

The 2025 Europe PV system pricing report covers solar capex for 15 major countries across residential, commercial and utility-scale segments. It includes detailed breakdowns for ...

The average cost of a residential solar panel system in France ranges between 6,500EUR and 11,000EUR for systems from 3 kWp to 6 kWp, including panels, inverter, mounting, labor, and grid ...

The cost of DIY solar panel installations in France is poised for an increase, driven by new regulations aimed at enhancing safety standards.

France's energy regulator, the Commission de Régulation de l'Énergie (CRE), a trusted authority in the field, has released the updated feed-in tariffs (FITs) for rooftop solar installations up to ...

Unlike net metering models, France's FiT program pays solar producers for every kilowatt-hour they inject into the grid. This long-term approach has been a cornerstone of France's energy transition, ...
