What is the current lifeline electricity tariff in Zambia?

The Board DIRECTS ZESCO to maintain the current lifeline units at 100kWh at a reduced tariff, from 47ngwee to 40ngwee/kWh. This is consistent with the Government's aspiration to make electricity accessible to all Zambians.

What is the energy sector in Zambia?

ZAMBIA'S ENERGY SECTOR OVERVIEW Zambia's energy resources include electricity (hydropower), petroleum, coal, biomass and renewable energy. It is only petroleum which is wholly imported in the country. The Energy Sector in Zambia consists of three main sub-sectors namely: Electricity, Renewable Energy and Petroleum. **ELECTRICITY SUB-SECTOR**

How is Zambia's Electricity Market structured?

Table 1: Installed and Available Generation Capacity (MW) Zambia's electricity market is structured as a single-buyer market model with ZESCO acting as the unique off-taker and bulk retailer of electricity on the national interconnected system.

Should ZESCO re-negotiate tariffs with Independent Power Producers (IPPs)?

The ERB notes ZESCO's efforts in re-negotiating the tariffs with Independent Power Producers (IPPs) and wish to encourage ZESCO to continue this course of action with all IPPs. In this regard, the Board notes for example that the capacity charge agreed with Ndola Energy is not prudent and must be re-negotiated forthwith.

Zengamina Power Limited, an off-grid mini hydro power plant in Ikelenge District of North-Western province of Zambia, has an installed capacity of 0.75 MW. It was commissioned in 2007 and is ...
