-----

Check beforehand that the backup battery has a nominal voltage of 12 V and a capacity at least equal to that of the discharged battery. The two vehicles must not be in contact with each other.

Change Citroen C4 Picasso Mk2 (aka SpaceTourer) battery in 7 minutes.

Lay the base of your battery cabinet in its final position and assemble its two solid sides. (Once the battery cabinet is fully populated with batteries you won't be able to move it. Do Not assemble the ...

In this case it is a citroen c4, but the process is practically the same for any vehicle.

In order not to discharge the battery when the engine is stopped, your vehicle goes automatically into economy mode. The electrical components relating to comfort and headlamps (not sidelamps or ...

Today we will explain how to replace the battery of the Citroen C4 model 1. The first step to be carried out is to open the front hood and unlock the resonator, pushing back the support tab.

The battery of the Citroen C4 is located inside the front hood next to the air filter. To replace the battery, we need to remove the air tube cover and unscrew the tube clamp in order to then remove the entire air filter box.

Before installing batteries into the cabinet, carefully remove all items from inside the cabinet and lay it on its back, preferably on a clean surface or a furniture blanket.

If the battery on your second-generation Citroen C4 is now too old and you want to find out how to replace it correctly and safely, then all you have to do is read the following guide and put into practice what is described.
