C-reactive protein, also called CRP, is a protein made by the liver. The level of CRP increases when there's inflammation in the body. A simple blood test can check your C-reactive ...

Worried about QT interval prolongation? This online evidence based resource will help guide you how to measure the QT interval and calculate the QTc value with an easy to use calculator which takes into ...

Solar panel defects are rare, but they can still occur and impact your system's performance. Understanding common solar panel defects can help you identify potential issues early ...

People who have higher levels of HDL cholesterol often are at lower risk of heart attack and stroke.

This article discusses 21 common quality issues found in photovoltaic modules, including causes, impacts, and preventive measures. Understanding these problems can help improve ...

To prevent hotspots, it is crucial to ensure proper installation and wiring of the solar PV modules. Regular monitoring and maintenance can help detect and address any shading issues or ...

Solar panels connected to the grid may encounter issues with their electrical connections, often caused by loose connections or broken wiring. Left unaddressed, these problems ...

Solar panel defects: A solar panel will produce less than average power if it has faults, such as microcracks, chips, delamination, snail trails (discoloration), and faulty junction boxes.

Common solar panel defects, such as discoloration, delamination, and solar panel diode failure, often become more likely as systems age. These issues reduce overall efficiency and may ...

Hypertension can be diagnosed by performing careful and repeated measures of the blood pressure. Blood

Is it normal for photovoltaic panels to have missing chips

pressure categories include normal blood pressure, defined as a systolic ...

Triglycerides are an important measure of heart health. Here"s why triglycerides matter -- and what to do if your triglycerides are too high.

Here are 11 of the most common solar panel defects to watch out for in a solar installation, and how WINAICO works to prevent them from happening to your sites.
