Measures are endorsed by NQF only after thoughtful discussion and debate from across the healthcare community. And recommendations for use of measures in federal programs are made with input from ...

This highlights the need for robust, clear guidelines for grid-scale battery systems so that all stakeholders can understand good-practice and are implementing the correct health & safety...

Consensus drives every aspect of NQF work. Expert committee members represent diverse interests from every healthcare sector. Measures are endorsed by NQF only after thoughtful discussion and ...

The National Quality Forum (NQF), an affiliate of Joint Commission, is seeking comments from the public on a draft of its upcoming report on the use of artificial intelligence (AI) methods in ...

NQF will convene various multistakeholder groups, including an Advancing Measurement of Diagnostic Excellence Committee, Artificial Intelligence in Quality Measures Technical Expert Panel (TEP), and ...

Is grid-scale battery storage needed for renewable energy integration? Battery storage is one of several technology options that can enhance power system flexibility and enable high levels of renewable ...

Our Artificial Intelligence in Quality Measures Initiative develops guidance for the development, selection, and implementation of quality measures incorporating AI methods for use in accreditation, ...

For over 14 years, NQF led the endorsement and maintenance of quality performance measures for CMS. This experience led us to the understanding that the most important work happens through ...

The application of Battery Management Systems in telecom backup batteries is a game-changing innovation

# Measures to prevent grid-connected batteries for solar container communication station inverters

that enhances safety, extends battery lifespan, improves operational efficiency, and ...

The Lithium-ion Batteries in Containers Guidelines that have just been published seek to prevent the increasing risks that the transport of lithium-ion batteries by sea creates, providing suggestions for ...

Together We are Leading Exciting Work Joint Commission and NQF have formed a strategic affiliation to enhance healthcare quality, safety, equity, and affordability. NQF will continue its independent role in ...

While maximizing power transfer remains a top priority, utility grid stability is now widely acknowledged to benefit from several auxiliary services that grid-connected PV inverters may offer.
