In September 2025, GSL ENERGY completed another installation of a 10kWh wall-mounted energy storage battery system in the Philippines, delivering stable clean energy to local residential users.

Discover how Swiss Re and TSPI are advancing renewable energy with the largest solar and battery storage project in the Philippines.

For users" planned PV projects, Dyness adopts the method of light storage direct flexibility, using Dyness-HV4 high-voltage series batteries, which can be installed indoors and are convenient.

It utilizes an ISO-standard, CSC-approved maritime container that houses a photovoltaic power plant. This containerized system is designed for swift deployment and connection, incorporating integrated ...

With the Philippines grappling with grid instability and surging residential energy demands, the company spotlighted two flagship innovations: its utility-focused PowerTitan 2.0 battery ...

It is our goal to integrate battery energy storage systems in our renewable energy projects such as solar and wind. By storing excess energy generated during peak production times, these systems help ...

In this project, the inverter seamlessly integrated with the GSL battery, enabling dynamic power allocation based on solar generation, home demand, and grid availability.

Explore the Philippines" new solar project featuring cutting-edge battery storage systems, aimed at boosting renewable energy capacity and sustainability.

Philippines launches its first hybrid solar-battery plant in Batangas, combining solar power and storage, marking a milestone in renewable energy.

Philippines integrated solar container battery series

What is HJ mobile solar container?The HJ Mobile Solar Container comprises a wide range of portable containerized solar power systems with highly efficient folding solar modules, advanced lithium ...
