This article outlines practical identification methods, root causes, and effective solutions to help manufacturers improve string welding quality and production stability.

The photovoltaic string welding machine is mainly composed of a control system, a welding system, a cooling system, and a workbench. Its working principle is mainly to use high temperature to weld ...

One of the most critical machines in the Solar/PV production line is Stringer attaches and solders ribbons on the photovoltaic cells IBC, MBB, and various busbars, ensuring that the cells are aligned ...

Preparation and Conveyance of Solar Cells: Before the welding process begins, it is essential to ensure that the surfaces of photovoltaic cells are clean, free from dirt, oxides, and other...

To ensure that the preventive maintenance program for your welding equipment is optimally effective and specific to your equipment and project schedule, consult with your orbital equipment ...

The solar stringer machine is used to solder solar cells together with the use of bus bars into forming strings. This category of assembly equipment is one of the most sensitive since the soldering of the ...

Imagine trying to solder hair-thin ribbons onto delicate solar cells without damaging their photovoltaic properties. That's the daily challenge in photovoltaic module production where string welding ...

From material selection to final inspection, every step in solar panel string welding impacts system performance. As solar cells become thinner and more efficient, adopting advanced welding ...

How to reduce the shading area of a photovoltaic welding strip? The shading area of the photovoltaic welding strip is reduced by reducing the width of the main grid line and the PV welding strip, and the ...

Photovoltaic glue board string welding machine maintenance

The OSLB-1300 BC String Welding Machine introduced in this document is not only suitable for welding BC series battery strings but also compatible with various battery types such as Multi-Busbar (MBB), ...
