---

With our advanced production facilities and stringent quality control processes, we ensure that our offerings are of the highest quality. As a leading wholesale supplier, we provide competitive prices, ...

Today, the industry has cutting-edge machinery capable of working in synergy to create next-generation photovoltaic modules, from P-type PERC, N-type TOPCon, N-type HJT cells to semi-flexible panels, ...

Explore the critical role of solar taping and trimming machines in PV module production. Learn how this equipment works and how to choose the right model.

With global photovoltaic installations projected to reach 650GW by Q3 2025, manufacturers are racing to optimize their packaging workflows. Let's unpack why automated wrapping solutions have become ...

The ECOTAPE A is a fully automatic inline edge taping machine designed specifically for solar panels. It automates the application of tape along the edges, effectively replacing the traditional silicone ...

The process of edge sealing the panels can make or break the quality of the panel when it is exposed to weather elements. This article explains the benefits of using dispensing equipment to complete the ...

Automatically performs G2G module four-side edge sealing with fast changeover and high precision. Servo-driven sealing modules apply and press tape using soft materials to effectively protect cells.

First, when wrapping the photovoltaic panel, the side walls around the photovoltaic panel cannot be wrapped, and there will be two side walls without edge wrapping, which will affect the subsequent ...

3M(TM) Solar Edge Tape 1060 is specifically designed for solar module sealing and protection. It consists of high-quality acrylic foam adhesive with superior weathering black backing film. Solar Edge Tape ...

# Photovoltaic panel edge wrapping production

Automatically performs G2G module four-side edge sealing with ...

Our portfolio includes not only automatic solar panel production lines, but also individual equipment for PV modules production, from glass loading equipment at the beginning to solar panel assembly and ...
