What does Enphase Energy do?

Its semiconductor-based microinverter system converts energy at the individual solar module level and brings a system-based high-technology approach to solar energy generation, storage, control, and management. Stockholders of Enphase Energy, Inc. are cordially invited to attend Enphase Energy, Inc.'s 2025 Annual Meeting of Stockholders.

Who is Enphase solar?

Founded in 2006, Enphase transformed the solar industry with its revolutionary microinverter technology, which turns sunlight into a safe, reliable, resilient, and scalable source of energy to power our lives.

What makes Enphase Energy a sustainable company?

As a clean energy company, Enphase is committed to sustainable operations: Enphase Energy serves diverse customer segments across the solar energy ecosystem, from individual homeowners seeking energy independence to large commercial enterprises implementing comprehensive sustainability strategies.

Who does Enphase Energy sell to?

The company sells its solutions to solar distributors; and directly to large installers, original equipment manufacturers, strategic partners, and homeowners, as well as through its legacy product upgrade program or online store. Enphase Energy, Inc. was incorporated in 2006 and is headquartered in Fremont, California.

Here's how. In some cases, a new solar energy system will require a costly upgrade to your main electrical panel. But the Power Control software included in Enphase systems may help you avoid ...
