Where is Shengli Oilfield located?

Our company is located in Shengli Oilfield (Dongying city, Shandong province). It is a petroleum equipment service supplier, comprised of experienced engineers in petroleum equipment design and manufacture and business teams.

How is liquefied carbon dioxide pumped into the Shengli Oil Refinery?

Construction of this landmark project began in July 2021. It involves capturing liquefied carbon dioxide at the Qilu refinery, and injecting it into 73 wells in the nearby Shengli oil reservoirs via a closed pipeline system, which helps improve the sequestration rate.

What is Sinopec's Qilu petrochemical-Shengli Oilfield CCUS project?

Sinopec's Qilu Petrochemical-Shengli Oilfield CCUS project opened in January 2022 is the first million-tonne-level CCUS project in China. Credit: Sinopec There are few challenges as daunting as those faced by Sinopec in its decarbonization efforts.

SHENGJI GROUP (formerly known as General Machinery Plant of Shengli Oilfield, SINOPEC), established in 1964 and restructured in 2007, is a comprehensive enterprise integrating design, R & ...

Shandong Shengli Oilfield Ash Field solar farm is an operating solar photovoltaic (PV) farm in Dongying District, Dongying, Shandong, China.

Up to now, the platform has transported 20.52 million tons of crude oil and 383 million cubic meters of natural gas outward. The oil field has adopted green and low-carbon concept into the ...

This innovative development at Shengli Oilfield is expected to generate 480 million kWh of clean electricity annually, showcasing the region's shift toward sustainable energy solutions.

To make the best of idle land at Shengli Oilfield, a demonstration project for integrated photovoltaic and energy storage with a total installed capacity of 300 megawatts was accomplished ...

With an annual power generation capacity of up to 116,800 kWh, the mobile PV station can run on- and

Shengli Oilfield Photovoltaic Support

off-grid. It is cost efficient and features adaptive autonomy.

After years of development, the oilfield has built 240 photovoltaic power stations, all of which have been connected to the grid for power generation. The total installed capacity reaches 411 ...

On July 1, the largest photovoltaic construction project in Shengli Oilfield, the construction project of 106 MW photovoltaic power station in Lugudong Management Zone 1 of Shengli Oilfield, which was ...

Welcome to our dedicated page for Shengli Oilfield Photovoltaic Support! Here, we have carefully selected a range of videos and relevant information about Shengli Oilfield Photovoltaic Support, ...

These range from the Baihetan hydropower station to the world's largest desert-based wind and solar energy project in the Kubuqi Desert and the Shengli Oilfield million-metric-ton-level Carbon Capture, ...
