Who is solar leads generation?

At Solar Leads Generation, we specialize in providing top-notch services to help you generate high-quality leads and boost your solar sales. Our mission is to empower solar companies like yours with a steady stream of potential customers ready to embrace solar energy's benefits.

What are solar panel live transfers?

Solar panel live transfers are pre-screened leads transferred directly to your sales team in real time. These prospects are homeowners who have expressed interest in solar installations, helping you focus on converting motivated buyers.

What are live streaming sales?

The live streaming sales refers to that sellers (manufacturers or retailers) employ streamers to visually display product attributes to consumers via live streaming on platforms to stimulate their purchase intention (Wongkitrungrueng et al., 2020, Liu and Liu, 2021, Ma et al., 2022).

What are the profit functions of a manufacturer in live streaming sales?

For the live streaming sales, we consider that the manufacturer uses the agent sales mode to sell products by the streamer, that is, the manufacturer usually has the product ownership and pricing power (Jiang and Cai, 2021). In this situation, the profit functions of the manufacturer in the four scenarios are the same as those in Section 4.
