The solar photovoltaic generation push rod device has low energy consumption, uses one single push rod, reduces the cost and improves the generating efficiency.

The invention discloses an electric push rod provided with built-in microswitches and an encoder and used for driving a photovoltaic solar bracket. The electric push rod comprises a box body ...

The invention belongs to the technical field of solar photovoltaic power generation, in particular to a push rod in a uniaxial photovoltaic support, wherein the uniaxial photovoltaic support comprises a column, ...

The invention relates to an electric push rod-controlled photovoltaic generating set for automatically tracking the sun with double shafts, which comprises a solar panel, a bracket, a...

Enter the photovoltaic tracking bracket electric push rod, the personal trainer that keeps your panels chasing sunlight like kids chasing ice cream trucks. These smart actuators adjust panel angles ...

The present invention relates to the technical field of photovoltaic push rods. Disclosed is a photovoltaic push rod locking structure, comprising a nut and a fixing member.

The invention discloses a solar panel electric push rod with a protection function, and relates to the technical field of electric push rods.

Ever wondered how solar panels follow the sun like sunflowers? Meet the photovoltaic panel push rod swing arm - the joint-cracking yoga instructor of solar arrays.

By means of the above mode, the electric push rod provided with the built-in microswitches and the encoder and used for driving the photovoltaic solar bracket can realize ...

The present invention relates to the technical field of push rods. Disclosed is a solar push rod, comprising an

Solar photovoltaic panel push rod

outer rod body, a cylindrical inner rod body, and a connecting block body...
