A \$2 billion solar farm project to combat climate change has ended in disaster, after officials were forced to pull the plug on the experiment.

The Ivanpah Solar Electric Generating System in California's Mojave Desert--once hailed as a breakthrough in solar energy--is nearing its end. Built in 2014 using solar thermal tower ...

California built a \$2.2 billion solar thermal project in the Mojave Desert in the early 2010s, with 75% of it funded by the Obama administration through loan guarantees. The project, the ...

One of the most ambitious solar projects in history is quietly heading for shutdown after just a decade of operation. The Ivanpah Solar Power Facility in California's Mojave Desert was once...

The Trump administration wants to see this unusual power plant closed, and in a rare instance of alignment, the Biden administration did, too.

The Ivanpah concentrated solar power plant, located at the base of Clark Mountain close to the Nevada border, will partially shut down after PG& E pulled two of its power purchase agreements.

LAS VEGAS (KSNV) -- Two units at the massive solar power plant near Primm, Nevada will shut down in the coming years as a deal with a California utility winds down.

The closure of numerous solar contractors in 2024 has sent ripples through various facets of the solar market, affecting customers, ongoing projects, and the industry.

Another U.S. solar panel manufacturer shuts down, highlighting the challenges in the renewable energy sector. Learn about the causes and implications for solar panel production.

Headlines have been circulating major news outlets around the impending closure of the Ivanpah Solar Power
