What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

Where are outdoor Telecom enclosures made?

Every outdoor telecom enclosure we manufacture is designed, fabricated, and assembled entirely in the USA. Our commitment to American manufacturing means you receive consistent quality, faster lead times, and complete Build America, Buy America (BABA) self-certification documentation with every order.

What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

How much slack can a telecommunication pole store?

This all-metal pole-mount enclosure stores up to ~250' (144-count) of outdoor fiber slack. Powder-coated steel and stainless hardware ensure field durability, while cable keepers and key-hole mount points ensure organized, secure slack storage on telecommunication poles.

Westell offers secure, weather-tight outdoor network enclosures to protect electronic equipment for outdoor telecom networks.

With a decade of expertise in metal fabrication, Shengen delivers custom outdoor telecom enclosures that exceed industry standards. Our experienced engineering team ensures precise craftsmanship, ...
