Renewable energy company Voltalia has signed a power sales agreement with JSC Uzenergosotish for its 526MW Artemisya hybrid project in Uzbekistan. The agreement was ...

In March 2025 1, Voltalia signed a Power Purchase Agreement (PPA) with the Uzbek government during a ceremony at the 'lysée Palace. This agreement was decisive for Artemisya, ...

The Artemisya project is a hybrid solar-wind-storage project that boasts 126MW solar PV, 300MW wind power and 100MW/200MWh BESS. The commissioning of the project is slated for ...

The PPA will support Voltalia's Artemisya project in the Bukhara region, which combines 126 MW of solar, 300 MW of wind power and 100 MW/200 MWh of battery storage, the French firm ...

In November 2023, during a state visit led by Presidents Emmanuel Macron and Shavkat Mirziyoyev, Voltalia signed a protocol outlining the next steps for the Artemisya hybrid project. The ...

This large-capacity, modular outdoor base station seamlessly integrates photovoltaic, wind power, and energy storage to provide a stable DC48V power supply and optical distribution.

Leading international law firm Herbert Smith Freehills has advised Voltalia, an international player in renewable energy, on the signing of a power purchase agreement (PPA) for its ...

This paper gives the design idea of optimized PV-Solar and Wind Hybrid Energy System for GSM/CDMA type mobile base station over conventional diesel generator for a particular site in ...

The results of these studies will help develop a wind station project that minimizes or eliminates the negative impact on the environment and the biodiversity of the region, which holds significant ...

Uzbekistan installs wind and solar hybrid communication base station

The invention relates to a communication base station stand-by power supply system based on an activation-type cell and a wind-solar complementary power supply system.
