-----

One of the largest capacitors available on the market today: at 100 Farads, they don't get much bigger than this. In fact, this surprisingly compact capacitor exceeds the capacitance that would be ...

(1) The low impedance of the farad capacitor is essential for many high power applications today. For fast charge and discharge, a small ESR of a farad capacitor means a greater power output.

Have any questions? Talk with us directly using LiveChat.

Super Capacitor designed for hybrid battery packs, UPS and telecom systems, hold power, quick charge and discharge, very high capacitance. A variety of supercapacitor batteries and super farad ...

Supercapacitors are available at Mouser Electronics. Mouser offers inventory, pricing, & datasheets for Supercapacitors.

Electric double layer capacitors can charge and store more energy than standard capacitors. They are used in applications such as handheld devices and are now widely used in hybrid vehicles because ...

With an internal resistance that is infinitely lower than a conventional electrolytic capacitor, they guarantee a very fast transient response, greatly improving the sound quality.
